WELCOME

Founded in 2004, Safety Direct Solutions Pty Ltd (SDS) is a Registered Training Organisation (RTO #51632) and a premier provider of industrial safety, fire, rescue, and medical training, as well as emergency services across the Australasian region.

Now under the ownership of SIS Limited, one of Asia-Pacific's largest security firms, SDS benefits from the extensive expertise of a company renowned for its security, facility management, and cash logistics services in the region.

SDS excels in delivering comprehensive solutions in Critical Risk Management, Security, Training, and Medical Services for diverse sectors including Energy, Mining, Infrastructure, Government, Defence, and Entertainment. Our team comprises seasoned professionals with backgrounds in local, international, military, and civilian emergency response.

With operations in Western Australia, Northern Territory, Queensland, New South Wales, South Australia and New Zealand, SDS operates state-of-the-art Centres of Excellence in Perth and Darwin, featuring versatile training equipment and a fleet of emergency response vehicles.

Setting the ultimate benchmark in Australia for safety training and emergency management, SDS is committed to excellence. We leverage extensive industry experience, top-tier training, and a blend of multinational expertise and local insight to provide superior clinical care and emergency response solutions.

Why SDS?

Partnering with Safety Direct Solutions gives you access to unmatched expertise in safety and emergency management, supported by our extensive industry experience and a skilled multinational team. We provide world-class training, state-of-the-art facilities, and comprehensive emergency response solutions tailored to meet the needs of diverse sectors.

Our commitment to excellence ensures that we consistently deliver the highest standards of safety, clinical care, and operational resilience. As a trusted partner, we help organisations manage critical risks and enhance their preparedness, ensuring the safety and well-being of your teams and operations.

Wayne Stone
General Manager

OUR VISION

Bringing People Home Safely.

OUR MISSION

We take the lead on critical risk activities for our clients so they can focus on their core business.

OUR VALUES

- Our People are key to our success.
- Providing a quality service and focus on our customer's experience.
- We focus on solutions not problems and embrace simplicity.
- Embracing ownership and achieving excellence in everything we do.

The SDS stag, represented in our logo, symbolises wisdom, strength, leadership, integrity and protection. These are some of the key attributes that SDS as a company have built on and integrated into the organisational culture. SDS set the benchmark in Australia for excellence in safety training and emergency management. Our people have extensive industry experience and we train them to an even higher standard, where our clients can depend on them to respond to and effectively manage any emergency situation.

TRAINING SERVICES

At SDS, our Training Services team is committed to empowering individuals and organisations with tailored, comprehensive training solutions that drive success. Our expert trainers provide practical, engaging, and results-driven programs designed to meet a wide range of learning needs. Whether you're looking to enhance personal skills or upskill your workforce, SDS is committed to delivering training that supports your growth and operational goals.

Our comprehensive course offerings cover everything from essential health and safety training to specialised programs such as Emergency Response and Rescue and Emergency Health Care. These courses are designed to equip your team with the practical skills and knowledge they need to excel in dynamic, high-risk environments.

A standout feature of SDS is our Centre of Excellence in Perth, WA, which houses our purpose-built, live Fire-Fighting training ground. This state-of-the-art facility offers a realistic, hands-on environment where personnel can develop and refine their skills, preparing them for real-world challenges.

We believe that learning and development should extend beyond the classroom. That's why we offer skills maintenance programs to ensure your team stays current and proficient in their roles. Our commitment to continuous improvement ensures your workforce remains at the cutting edge of industry standards.

Why Choose SDS?

Expert Trainers

Our trainers are not just educators; they are seasoned professionals with real-world experience.

Customised Solutions

We develop personalised training programs to address specific challenges and goals.

Flexible Delivery

We offer adaptable training schedules to fit your needs.

Proven Results

We are trusted by organisations across various sectors to provide training solutions that drive success and improve safety outcomes.

Train at our facilities or on your site.

Training Solutions include and are not limited to:

Training Needs Analysis

Identify required competencies and the best approach for your workforce.

Skills Maintenance

Continuous improvement with customised scenarios.

Personnel Evaluations

Assess and identify qualities for specific roles.

Verification of Competency

Measure skill and knowledge levels.

Streamlined Registration

Simplified enrolment and participant registration.

Online Theory

Pre-classroom training to maximise practical time.

Refresher Training

Shorter durations for existing competencies.

Customisation

Adapt delivery content and practical activities to meet specific requirements.

Data Reporting

Provide detailed training reports in various formats.

CRITICAL RISK MANAGEMENT SERVICES

Our Critical Risk Management Services Team boasts extensive expertise across Australia, serving industries such as resources, government, and defence. Our deep understanding of Emergency Management allows us to effectively support and enhance specific areas of client operations. We prioritise collaboration to achieve high-quality outcomes, offering customised solutions tailored to meet unique client needs. With a meticulous approach, we emphasise attention to detail, understanding that it can make a crucial difference in saving lives.

SDS's Critical Risk Services are built on a foundation of experience from ex-military, emergency services, and industry professionals with trade, engineering, and safety qualifications.

We are committed to staying at the forefront of industry technology and software. Our advanced tools include:

- Thermal Imaging Cameras
- Safety Culture
- ChemWatch with Smarter Suite App Online Permit Tracking
- Integrated Calendar Booking System for CRMT Services
- Live Ventilation Tracking System
- Live Permit Scheduling System
- Site Access/Egress System
- Live 4G Gas Monitor Tracking System
- Compliance Management Tablets

Defence Industry Security Program

Our services include and are not limited to:

Managing comprehensive permit-to-work systems (PTW).

Issuing all on-site permits for critical risk tasks such as working at heights, confined space, hot works.

Monitoring and maintaining safe work environments.

Health and safety audits and guidance provision of customised rescue services.

Provision of specialised emergency response.

Confined space auditing and management.

Shutdown services including issuing shutdown permits.

Labour supply for Isolations Officers, Permit Officers, Gas Testers, Safety and Security Officer, Sentries, Emergency Response and Site Access Control.

Our approach ensures that our teams are always ready to provide effective and efficient first responses to on-site incidents.

Our expert safety consultants provide solutions throughout project lifecycles - from research and development through to construction and operations.

We review, audit, and refine Safety Management Systems to align with organisational and project evolution.

We prioritise collaboration to achieve high-quality outcomes.

MEDICAL SERVICES

Our Medical Services Team specialises in establishing and operating remote area medical services. We provide a comprehensive range of medical solutions, from emergency medicine to fully integrated occupational health systems, for both onshore and offshore environments.

Our goal is to enhance the health and wellbeing of all personnel, wherever they may be. We offer responsive, compassionate care that delivers high-quality, comprehensive medical services, reducing risks, injuries, and incidents.

Our commitment is to ensure that everything we do is focused on achieving the best possible patient outcomes.

SDS provides a comprehensive ambulance service designed for high-risk, sporting, and family events, as well as interfacility transfers. We offer both an outsourced turnkey ambulance service solution and support for developing sitespecific services tailored to client needs.

Whether you require long-term support for a remote location or a short-term solution for a specific project, we tailor our services to meet your unique needs.

Our services include and are not limited to:

Ambulance Services: Emergency transport for critically ill or injured patients.

On-Site Medical Solutions: Fully equipped clinics; supply of medicine, consumables and equipment including maintenance.

24/7 Clinical Governance: Poisons permits and clinical practice protocols.

Aero-Medical Retrievals: Emergency response via rotary or fixed-wing aircraft.

Event Medical Management: High-risk, large-scale planning and risk assessments.

Telehealth Support: Clinical oversight and medical teleconsultation for remote sites.

Remote Medical Assistance: Comprehensive support in complex environments.

Emergency Response Plans: Tailored Medical Emergency Response Plans (MERPs).

Workplace Safety Services: Occupational health monitoring and advice, drug and alcohol, fit and hydration testing, return to work and injury management support.

Specialist Personnel: Emergency Officers, Registered Paramedics, Nurses, Critical Care Paramedics, Maritime Paramedics, and Doctors.

Specialising in remote area medical services.
